Dear Sir/Madam,

**Extensive Training Course on Laboratory Accreditation**

The Sri Lanka Accreditation Board for Conformity Assessment (SLAB) now operates accreditation schemes for Testing laboratories including Medical/Clinical laboratories, Certification bodies and Inspection bodies. At present the segment of testing laboratories holds a major share of the accreditation services provided by the SLAB. Due to the awareness created among Medical/Clinical laboratories and publication of new ISO/IEC 17025:2017, it is expected that there will be substantial demand for accreditation as well as transfer of accredited laboratory management systems in accordance with new requirements. The medical/clinical laboratories operating in the country including state sector laboratories exceed 700 in number. At present many of the laboratories are facing lot of constraints in developing their management systems due to the lack of suitable consultants to assist them in such tasks. As such the SLAB intends to conduct an extensive training course on laboratory accreditation which leads to develop Experts/Consultants for Laboratory Accreditation. This programme will cover the topics related to the management systems of both testing and medical/clinical testing laboratories to be in line with ISO/IEC 17025: 2017 and ISO 15189: 2012 International Standards respectively.

The duration of the programme is 12 full days during weekends, preferably on Saturdays. Senior Management, Technical Managers and Quality Managers of laboratories, University Lecturers involved in laboratory work and Consultants and Quality professionals currently active in other management systems are eligible to apply for this programme. After the completion of the classroom sessions, each participant, successful at the written examination(s) held at the end of the sessions/programme, is expected to develop documentation required for accreditation of selected laboratory and submit it to the SLAB as a partial fulfillment of the programme. The programme fee is **LKR 117 346.94** (LKR 100000/= +15% VAT, LKR 15306.12 + 2% NBT, LKR 2040.82) per participant and the maximum intake is 25.

The SLAB will maintain a list of trained experts/ consultants, which would be made available to client laboratories on request.

Applications are invited from persons with suitable qualifications for consideration for the above training programme. Those who are willing to be trained as Consultants in Laboratory Management Systems should send self-prepared applications indicating his/her name, address, current position, qualifications, training, work experience etc. to reach the undersigned on or before **05<sup>th</sup> of September 2019**. For information/clarification, please contact Mr. L H D Bandusoma, Deputy Director ( email: [bandu@slab.lk](mailto:bandu@slab.lk), 0718048793, 0112689157 ).

We seek your co-operation to circulate this communication among the suitable officials of your institution.

Thank you in advance for your co-operation.

Yours sincerely,

  
Chandrika Thilakaratne  
Director/CEO
