

Fields of Testing:

❖ **Chemical**

- Adhesives & sealants, Resins
- Air, gases & atmosphere
- Biocides
- Building Materials
- Cement, and related products
- Clays, ceramics, and related materials
- Coal, Coke & other solid fuels
- Cosmetics & essential oils
- Drugs & Pharmaceuticals
- Explosives & pyrotechnics
- Fertilizers
- Industrial & fine chemicals
- Inks, dyes & pigments
- Leather & Leather Products
- Food & agricultural products
- Soil
- Oils & lubricants

Product Groups

- Ores & Minerals
- Organic chemicals
- Paints & surface coatings
- Petroleum products
- Plastics & plastic products
- Pollution & effluents
- Pulp & Paper
- Residues in water & food Products
- Rubber & rubber products
- Soaps & detergents
- Solvents
- Textile & related products
- Water
- Other

❖ **Biological**

- Pollution & environment
- Water
- Biocides
- Cosmetics & essential oils

Product Groups

- Drugs & Pharmaceuticals
- Food & agricultural products
- Industrial cultures
- Other

❖ **Electrical**

- Cables & wires
- Capacitors
- Cells & batteries

Product Groups

- Conductors & conducting materials
- Domestic electrical appliances
- Other

❖ **Mechanical**

- Automotive components
- Building Materials
- Leather & Leather products
- Metal & metal products
- Paper & paper products
- Plastics & plastic products

Product Groups

- Rubber & rubber products
- Textiles & related products
- Other

Other Fields of Testing

- Electronics
- Fluid flow
- Non Destructive Testing
- Photometry
- Radiological
- Other
